*The Spiritual Significance of Modern Socialism.* By JOHN SPARGO. New York: B. W. Huebsch, 1908. Pp. 94.

Mr. Spargo understands the temper of religious people and he has written an eloquent and attractive appeal to the church to become an organ of socialism. Socialism is not defined, but private property, the monogamic family, freedom of investigation and publication, and tolerance of religion are declared to be compatible with his creed. Many important difficulties are not touched, as the possibility of reconciling public control with the advantages of personal initiation, and we have yet to see whether socialists will accept the idealistic argument.
